

Autism Advisor Program

Support Groups

The Autism Advisor Program is now providing information and support groups for parents and carers of children 0-7 with autism. The purpose is to answer questions commonly asked by parents following a diagnosis and to give information about relevant topics, including:

Week 1: Reflections on the diagnostic process

Week 2: Encouraging communication through the use of visual supports

Week 3: What is the NDIS and how to access the scheme

Week 4: Self-care for families and planning for the future of the group

We are taking expressions of interest to find out which locations have the greatest need. If there are no groups currently running in your area, we would be happy to take your name down and call you when we have enough interest.

To register please call the Autism Advisor Program on 1300 978 611 or send us an email: autismadvisor@autismspectrum.org.au

This is a free service funded by the Department of Social Services
